On-Site Education Programs

General Notes About Your Visit to the North Carolina Botanical Garden

- This is an outdoor program. Participants should dress for the weather, and be aware that, at certain times of year, mosquitoes can be bothersome.
- We can serve a maximum of 60 students at a time with this program.
- Please divide your students into groups of 10-12 prior to your arrival at NCBG. We can serve a maximum of 5 groups of this size at a time.
- If the age range of students is wide, it is helpful if students are grouped by age. This will allow our guides to deliver age-appropriate information.
- We make every effort to align our programs with your learning goals, but not all special requests can be honored.
